## SUMMARY

- Wala Eddine Boulebbina – Software Engineer & Cybersecurity Enthusiast
- Focused on designing and developing software solutions
- Experienced in LAMP and MERN stacks for full-stack development
- Built low-level projects like a basic compiler and a simple shell
- Focused on sharpening technical skills and contributing to impactful tech solutions

## EDUCATION

**University of Batna 2** – Batna, Algeria  
Information security - engineering

September 2022 – june 2027

## EXPERIENCE & PROJECTS

### Software engineer

february 2023 - march 2024

[Alex Africa](#) – Online

- Designed, Built, deployed [OrgSchool](#) (student Management System (SMS))

### Software engineer & Project manager

june 2024 - July 2024

[Alex Africa](#) – Online

- Designed, Built, deployed [Whisper](#) (Real-time chat app)

### Developer

august 2023 - august 2023

[Alex Africa](#) – Online

- Developing [simple shell](#) (bash like)

## VOLUNTEER ACTIVITIES

### Project manager & Developer

[Algerian tech maker](#)

july 2024 - Present

- Leading and contributing to **tech-driven projects**, collaborating with teams to develop **innovative solutions**, and supporting a **community for aspiring developers**.

### Content creator & media

[Algerian tech maker](#)

july 2024 - Present

- Hosting **live sessions** and creating **engaging content** to share **tech insights** and support the community.

## CERTIFICATIONS

### Software Engineering Program

june 2023 - june 2024

[Alex Africa](#) – Online

### AICE Program

April 2024

[Alex Africa](#) – Online

### 35 hour PMP Training

February 2025

[benhamouda consulting](#) - Online

## SKILLS

**Programming:** C, Python, JavaScript, TypeScript

**Web Development:** LAMP Stack, MERN Stack

**Tools & Frameworks:** Docker, Git, Linux, CI/CD Pipelines

**Project Management:** Agile & Waterfall Methodologies, Team Leadership, Task Prioritization
